## CORE COMPETENCIES

- Engine Parts Design & Development
- 3-D Scanning
- CNC Machining
- Fuel System
- Fabrication & Engine Build
- Rebuild & Remanufacture
- Inventory Management
- Warehousing Programs

## MISSION STATEMENT

To support the Department of Defense through reverse engineering and providing parts of limited availability or obsolescence.

Diesel Engines  
Remanufacturing  
Engine Rebuilding  
Engine Overhaul  
Engine Machining

Cylinder Heads  
Turbochargers  
Fuel Injection Systems  
Engine Components  
CAD/CAM Design

OEM Standards  
Industrial Applications  
Engine Testing  
Advanced CNC Machining

## CERTIFICATION

HUBZone Certification  
Pending

## DIFFERENTIATORS

- 4 and 5 Axis Capabilities
- Flow Bench & Testing Equipment
- In-house Quality Assurance
- Engine Dynamometer Testing

## INDUSTRIES SERVED

- Industrial
- Agricultural
- Automotive
- Transportation
- Marine
- Earth Moving
- Stationary Power

## NAICS CODES

- 332710 Machine Shops
- 333517 Machine Tool Manufacturing
- 333618 Other Engine Equipment Manufacturing
- 333924 Industrial Trucks & Tractors Manufacturing
- 811111 General Automotive Repair
- 811310 Commercial & Industrial Machinery & Equipment
- 336310 Motor Vehicle Gasoline Engine and Engine Parts Manufacturing
